

WITCOM

A member of Wittenburg Group

The Wittenburg Group is a family-owned business that develops application-specific thermoplastic compounds. We create customised polymer compound solutions for our customers and have over 115 years of experience. Operating out of our three production facilities Wittenburg, Witcom and Xunfeng, we produce Witcom® and Cawiton® grades to global specifications.

Witcom product range of high-performance engineering plastics compounds to serve the automotive, industrial and E&E markets. Cawiton product range of hard and soft plastics and thermoplastic elastomers to serve the medical, pharmaceutical and food industries.

To maintain and improve the compliance and life cycle management of our products, we are looking for:
